OLLECTION

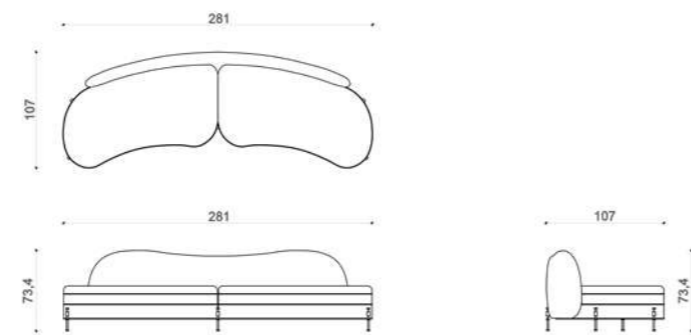

EXCLUSIVE DESIGN COLLECTION

It's always exciting to launch a new collection in design. But even more so this year! In our new collections, we have expanded our style and product range with the stories of all the collections themselves. Our latest collections remain true to the international aesthetic that is our signature, but we support a more aesthetic and individual approach to designs. This season, we have tried luxurious materials in innovative ways by celebrating the tactility of wood with our exclusive veneer on consoles. Surfaces that wrap unexpectedly in genuine leather on dining tables and sideboards... With all these, we are showcasing the expertise of our master craftsmen who use their knowledge to turn our drawings and visions into reality. Then, without further ado, let us introduce all the novelties in 2023. We hope you'll love as much as we did!
