HAKKIMIZDA

FARAMA ailesinin ve her bir çalışanın emeği ve sevgisiyle Avrupa, Ortadoğu, Afrika ve Asya ülkelerinin ürün standartlarına uygun şartlarda Avrupa kalitesinde armatür üretebilmenin sevinci bize iynin daha iyisini üretmemiz de ve yeni pazarlara girmemizde yardımcı olmaktadır. 35 yılı aşkın işimizi severek armatür imalatı yapıyoruz ve şu anda sektörümüzde yerli üretim yapan firmalardan bir tanesi olmanın da haklı gururunu yaşıyoruz. Bu da Cisa olarak kaliteden ödün vermediğimiz en büyük göstergesidir.

Cisa; Düzce Gümüşova OSB'de 8000 m² kapalı 4000 m² açık alana sahip entegre tesislerinde üretim yapmaktadır. Üretimini yapmış olduğumuz armatürlerin tasarımını ve üretimin ilk aşaması olan kalıpların kendi bünyemizde son teknoloji ile üretim tezgahlarında kusursuz olarak yapmaktayız. Döküm metoduyla şekillenmiş olan armatürlerimiz neredeyse el değmeden tamamı otomatik üretim hattında işlenmekte ve polisaj olmaktadır. Armatürlerde parlaklığı sağlayan krom ve nikel kaplama ve elektrostatik boyama işlemleri de kendi tesislerimizde uzmanlıkla yapılmaktadır. Meydana gelen armatür gövdelerinin yanında tamamlayıcı olan paslanmaz flex hortumlar, yedek parçalar ve aksesuarlar yine kendi bünyemizde pirinç çubuk, hammadde den işlenerek yapılmaktadır. Böylece kullanıma sunulacak olan armatürlerin bütün aksamları kaliteli bir şekilde kendi fabrikamızda üretilmektedir. Üretilen armatür gövdeleri ve aksamları büyük bir titizlikle birleştirilmekte ve tamamı otomatik, özel test ünitesinde zorlu testlere tabi tutulmaktadır. Ambalaja hazır ürünlerimiz çevreyle dost, geri dönüşümlü ambalajlarla, büyük bir hassasiyet ve dikkatle eksiksiz ve kusursuz olarak paketlenmektedir.

Yurt içi pazarda sektörün önde gelen kuruluşlarından olan Cisa,2015 yılı sonunda toplam üretiminin %50'sini yurt dışı pazarlarına yapmıştır. Gerek yönetim anlayışı gerek ürün kalitesi ve müşteri odaklı hizmet yaklaşımı ile Cisa, sadece Türkiye'de değil dış pazarda da hızla büyümekte ve atılımlarını sürdürmektedir. Siz değerli iş ortaklarımızın desteği ve çalışma arkadaşlarımızın da gayreti ile iynin daha iyisini üretebilmek ve ülke ekonomisine kazandırabilmek için var gücümüzle çalışıyoruz.

ABOUT US

The joy of producing faucets of European quality in accordance with the product standards of European, Middle Eastern, African and Asian countries, with the effort and love of the FARAMA family and each of its employees, helps us to produce better than the best and to enter new markets. We have been manufacturing luminaires for more than 35 years, and we are now proud of being one of the companies that make domestic production in our sector. This is the biggest indicator that we, as FARAMA, do not compromise on quality.

FARAMA; It produces in its integrated facilities with 8000 m² closed and 4000 m² open area in Düzce Gümüşova Organized Industrial Zone. We design the armatures that we have produced and the molds, which are the first stage of production, in our own structure, with the latest technology, perfectly on the production benches. Our luminaires, which are shaped by the casting method, are processed and polished in an automatic production line, almost untouched by hand. Chrome and nickel plating and electrostatic painting processes that provide brightness in luminaires are also carried out in our own facilities with expertise. Stainless flex hoses, spare parts and accessories, which are complementary to the armature bodies that are formed, are produced by processing from brass rods and raw materials in our own structure. Thus, all components of the fixtures to be put into use are produced in our own factory in a high quality manner. Produced luminaire bodies and components are combined with great care and subjected to rigorous tests in a fully automatic, special test unit. Our ready-to-pack products are packed completely and flawlessly with great precision and care in environmentally friendly, recyclable packaging.

FARAMA, one of the leading companies of the sector in the domestic market, made 50% of its total production for foreign markets at the end of 2015. With its management approach, product quality and customer-oriented service approach, FARAMA is growing rapidly not only in Turkey but also in the foreign market and continues its breakthroughs. With the support of you, our esteemed business partners, and the efforts of our colleagues, we are working hard to produce the best of the best and bring them to the country's economy.

we produce in TURKIYE for the WORLD

NEDEN ARMATÜR? ARMATÜR?

ENTEĞRE TESİS

Armatürün dökümünden paketlenmesine her aşamasını tek çatı altında üretimle sağlamaktayız

YÜZEY KAPLAMA

Standartların üzerinde krom ve nikel mikron değerleri sayesinde uzun süre parlaklık sağlar

SERAMİK KARTUŞLAR

Armatürlerin kalbini oluşturan seramik kartuşlar uzun ömür ve dayanıklılık gösterir

PASLANMAZ ÇELİK HORTUM

Kendi tesislerimizde ürettiğimiz flex hortumlar yüksek barlara dayanım ve güven sağlar

ERGONOMİK TASARIM

Hareketli borular ve yüksek akış uçları sayesinde rahat kullanım sunar

GARANTİ VE SATIŞ SONRASI

Ürünlerimiz üretim hatalarına karşı 5 yıl yedek parça ve onarım garantilidir

ÇEVRE DOSTU ARMATÜR

Su tasarruflu aerator ve çevre dostu ambalajlarla çevreye duyarlı üretim yapmaktayız

STANDARTLARA UYGUN ÜRETİM

TSE standartlarında üretim ve ISO standartlarında yönetim ve kalite sertifikaları

INTEGRATED FACILITY

We provide every stage of the armature from casting to packaging with production under one roof.

SURFACE COATING

Provides long-lasting shine thanks to chrome and nickel micron values above the standards

CERAMIC CARTRIDGES

Ceramic cartridges, which form the heart of the luminaires, show longevity and durability.

STAINLESS STEEL HOSE

The flex hoses we produce in our own facilities provide resistance and reliability to high bars.

ERGONOMIC DESIGN

Provides comfortable use thanks to movable pipes and high flow tips

WARRANTY AND AFTER SALES

Our products are guaranteed for spare parts and repairs for 5 years against manufacturing defects.

ENVIRONMENTALLY FRIENDLY LUMINAIRE

We make environmentally friendly production with water-saving aerator and environmentally friendly packaging.

PRODUCTION ACCORDING TO STANDARDS

Production in TSE standards and management and quality certificates in ISO standards
