Tasarımda gelecek kurgumuzun en modern yansıması. Segment algılarını yıkarak yeni bir alan açtığımız ve genel geçer kriterleri altüst ettiğimiz bir tasarım. Asimetrik ve akışkan yapısı ile alışılmısın dışında. Genel yapısında dna sarmallarının hareketlerini göreceksiniz. Malzeme seçiminde kalite ve lüks algısını; modern yaklaşımdan taviz vermeden ortaya koyduk. Tamamı doğal kaplama masif ve yüksek Türk işçiliği ile ele alınmış cila ile, sektördeki en büyük çarpanımız olan hassas işçilik ve yüksek kalite iddiamızdan taviz vermedik.

Tamamı dökme alüminyum ayak yapısı dna formunu simgelerken, dönerek yükselme egrisini temsil ederek, semazen zerafetinde bir duruş sergiliyor. Tasarım ekosisteminin öncesi ve sonrasını, bir mihenk taşı gibi ayıracak Dna setimizi, siz değerli misafirlerimize sunmaktan gurur duyuyoruz.

In design, it is the most modern reflection of our future fiction. It is a design in which we open a new field by destroying the perceptions of the segments and overturn the generally accepted criteria. With its asymmetrical and fluid structure, it is unusual. You will see the movements of the DNA helixes in its general structure. We have revealed the perception of quality and luxury in the selection of materials, without compromising the modern approach. With all natural coating massive and polished with high Turkish craftsmanship; We have not compromised on our precision craftsmanship and high quality claim, which is our biggest multiplier in the industry.

While the all-cast aluminum foot structure symbolizes the DNA form, it presents a whirling dervish-like stance by representing the curve of rising by turning. We are proud to present our DNA set, which will separate the before and after of the design ecosystem like a touchstone, to our esteemed guests.

2023 koleksiyonumuzun orkestra şefi.

Mobilyada sanat, kalite ve işçilik algısının kriterlerini yeniden yazma amacının meyvesi. Başlıbaşına bir amiral. Akışkan ve kademeli hatlarını, piyanodan aldı. Kendi içinde katmanlı, keskin fakat genelinde organik bir yapıda. Ekolayzer grafiği formunda yükselen ve alçalan frekansları ürüne dikkatli baktığınızda göreceksiniz ve bu bileşenin arasından kulağınıza bas bariton bir tenorün sesi gelecektir. Ürünün sol yanında görmüş olduğunuz sıralı kesimler tek tek el ile masif kaplanmış bağımsız parçalardır. Yüksek işçiliğimizin tezahürü olan bu birimleri onlarca parçadan oluşan metaller ile birleştirdik. Panoda açığa çıkan kanat yapısını; bu maskülen ürünün kral tacı olarak tasarladık ve tüm detaylarda da kullanmaya çaba gösterdik. Ofis ve mobilya sektöründe Türk kalitesi algısını en tepelere çıkarttığımız Baritone; retro-modern yapısı ile yıllara meydan okuyacak bir kurguda tasarlandı ve imal edildi. Siz değerli misafirlerimize bu kıymetli eseri sunmamın tatminini yaşıyoruz...

Orchestra conductor of our 2023 collection.

The fruit of the aim of rewriting the criteria of perception of art, quality and craftsmanship in furniture. An admiral itself. It took his fluid and gradual lines from the piano. It is layered within itself, sharp but generally organic. When you look carefully at the product, you will see the rising and falling frequencies in the form of an equalizer graphic, and you will hear the sound of a bass baritone tenor through this component. The sequential cuts you see on the left side of the product are individual pieces that are massively coated by hand. We combined these units, which are the manifestation of our high craftsmanship, with metals consisting of tens of pieces. We designed the wing structure exposed on the panel as the king's crown of this masculine product and we tried to use it in all details. Baritone, where we bring the perception of Turkish quality to the top in the office and furniture sector; It was designed and manufactured in a fiction that will defy the years with its retro-modern structure. We are pleased to present this precious work to you, our esteemed guests.

Retro, İskandinav ve hafif klasik. Masifin gücünü arkasına alarak deri ile ikonikleşti. Parmaklık yapısı ve kavisli formlarında İskandinav esintilerini göreceksiniz. Ürünün güncelliğine ve modernizme bir atıfta bulunarak haricen camı da oyuncu olarak devreye soktuk. Sanat yaklaşımı olarak geçmiş ve gelecek arasında kaldığını düşündüğümüz ürünüme Kurtuba ismini vererek beslendiğimiz kaynağı ve yarınlarda inşa edeceğimiz geleceği temsil etmesini istedik. Her yönü ile hisli bir ürün olarak karşınıza çıkan Kurtuba; mekanlarınıza anlam katmak için sizlerle buluşuyor.

Retro, Scandinavian and slightly classic. Taking the power of the massive, it became iconic with leather. You will see Scandinavian influences in the railing structure and curved forms. With a reference to the product's timeliness and modernism, we also introduced the external glass as a player. As an artistic approach, we named our product Kurtuba, which we think is between the past and the future, and wanted it to represent the source we feed on and the future we will build in the future. Kurtuba, which comes before you as a sensitive product in every aspect, meets you to add meaning to your spaces.
